

City of Memphis- GIS Data Migration Services
RFP # SAIC CoM 2016 MC R187316 RFP Questions

<u>RFP Section</u>	QUESTION	ANSWER
	Can a US company with GIS service operations in India bid on this project?	RFP Section 1.2 Introduction/Overview states, Vendor must provide all of the Services from locations within the United States.
Exhibit 5	Can we get examples of source data?	No, the projects haven't been identified. This will be an umbrella contract that we can write work orders under as the projects get identified.
Exhibit 5	Can we get a comprehensive list of the various types of source data?	Please refer to answer above.
Exhibit 5	Can we get an estimate of the quantity of files broken down by data type?	Please refer to answer above.
Exhibit 5	Can we get a list of data types that are to be collected through survey? (road signage, fire hydrants, road and sidewalk surface types, storm water/sewer network, etc)	Please refer to answer above.
Exhibit 5	Does the city expect UG locates of existing city infrastructure? (i.e. water, sewer, gas)	Possibly depending on the projects to be identified.
Exhibit 5	Does the city expect or need sub meter GPS accuracy? If not what is the tolerable accuracy?	No.
Exhibit 5	Do we need to mark specific public land versus private versus historical landmark areas?	Possibly depending on the projects to be identified.
Exhibit 5	What are the city owned utilities? (gas, sewer, electric plant, etc)	City utilities are provided by Memphis. Light, Gas, Water, and additional information should be obtained from them.
Exhibit 5	The term of contract shall be for one (1) year with the option to renew for two (2) additional 12 month periods. Does this mean that complete work needs to be completed in 1 year and additional work may be awarded for the next two years.	The length of each project is determined by the nature of the project to be identified. They can cross multiple years.

City of Memphis- GIS Data Migration Services
RFP # SAIC CoM 2016 MC R187316 RFP Questions
